

# LONDON 2017

## Monday 13<sup>th</sup> 1<sup>st</sup> day in London

Dear diary, it was a very long trip to London as I waited anxiously on the bus. Unfortunately, I had eaten all the treats I brought for the trip. When we were told we were nearly there everyone on the bus was cheering with excitement because the journey seemed like it was going on forever. Later we arrived at St Paul's Hostel and put our suitcases up in the dorms. Everyone was exhausted from the walk to the amazing museum of London, but eventually we arrived there and learnt important, unique information on London's history and future. We learnt about the great fire of London and how London was before, now it is awesome. Finally, we arrived back at the hostel and had our spectacular evening meal. After that, everyone went back to their well-kept dorms and started to unpack. Obviously, everyone had a nice chill out before our moonlit night walk. That night was magical as everyone went back to their dorms and fell asleep in their beds.

## 2<sup>nd</sup> day in London

As I arose from my comfy bed, I heard the bell of St Paul's cathedral chiming away as it woke everyone else up. We all got ready for the exciting day ahead of us and had our delicious breakfast. That day was the day we were going on the underground to the fantastic Natural History Museum to lay our eyes upon their prehistoric exhibits. We had tonnes of fun looking at all the interesting information on the Earth's past. My favourite part was looking at all the bones of Earth's creatures from the past. We all had fun in the museum, but we had to go to the fabulous Science Museum. Everyone's favourite part was the awesome Wonderlab, with its unique experiments and the electricity show. Once again we went back to our hostel to have our scrumptious dinner. Everyone went to their dorms and had fun at their evening walk. After everyone went back to the hostel and had a good nights sleep.

## 3<sup>rd</sup> day in London

Everyone got up excited as they couldn't believe it was the day of sightseeing and going on the London eye. As you can believe I ate up my breakfast and rushed outside to get this amazing day started. First we went on the London Eye; it felt like I was actually flying above the beautiful city of London, I could see Big Ben and other famous landmarks we were going to see on that day. After that we ate our packed lunches and set of on the exhausting walk to Buckingham Palace. When we were there we had the most amazing time and met a very nice policeman. It was so interesting to see the guards change too. Everyone had fun that day, also the dinner we had in the afternoon was amazing . That night our evening walk was the best walk I have ever been on. Everyone had fun running through the colour water spouting from the ground, I got soaked but other people stayed out. That energetic activity got everyone to sleep straight away, lucky teachers!

## 4<sup>th</sup> day (LAST DAY) In London

The last day was the most interesting since we went in the ancient St. Paul's Cathedral. Everyone had fun there, mostly in the Whispering Hall. My friend could hear me on the other side of the dome. Sadly everyone was dreading leaving and having another long journey home. That journey was not as bad as the first because we knew we would get home to our family and the service station had a McDonald's. Everyone arrived back to school safely and got their suitcases. I went home to my family, but one thing I knew was that London was an unforgettable trip.

# LACHES WOOD 2017

On Monday 13th March, Year 5 pupils went to Laches Wood for a residential trip for 4 days. When we arrived we got introduced by Mr CJ. We did activities such as Caving, BMXing, Bushcraft, Search and Rescue, Rockclimbing, High Ropes and Archery.

My favourite activity was the archery because I had never done it before and in the competition I scored 18 points.

If I was to do anything again it would be Search and Rescue because we had to retrieve a pilot from the woods.

By Jack Muni 5MH

Laches Wood was fun

And there was a lot of sun

Carrying the suitcases to the bus

Helping everyone of us

Each had our own dorm

So we had to line up in a form

When we did the high ropes

Only some of us could cope

Over the hills we could see

Dorms were nice, we went to sleep
