16th September 2021

Dear Parents/Carers

Year 8 Food Technology Lessons

James Bateman Middle School will be providing ingredients for your child's food technology lessons to ensure he/she is able to take part in ALL practical lessons. In the past a lot of children have missed out on taking part in practical lessons due to pupils forgetting to bring ingredients to school. To overcome this problem we wish to provide all ingredients at a cost of £17 for the academic year. Parents are required to either pay £17 or provide the ingredients.

All tubs/tins need to be provided from home. Unfortunately refunds will not be issued for practical lessons that are missed. **Pupils will not be able to partake if they do not have ingredients.**

Please pay by 24th September 2021.

Online: Parents should now have received their Activation Letter for Parentpay. Simply activate your account and pay online. If you have no computer access at home, there are computers available at Biddulph Library and Biddulph Town Hall.

Yours faithfully

Mr Carpenter
Food Technology Teacher
